## Dynamic new website for employers and learners

Bournemouth and Brighton-based web design and multimedia company, Stilton Studios, has

completed the first phase of the dynamic new website for the South West Lifelong Learning Network (SWLLN).

The new site has been tailor-made for practitioners of the SWLLN and will be an effective resource for residents of the South West who are interested in work-based, flexible, university-level qualifications and employers who want to improve the skills of their workforce with minimal

disruption and maximum gain.

"It is an organic website that will grow, develop and progress much like a similar website we

developed for DSW (Dorset, Somerset and Wiltshire) that was hugely successful for learners in the South," states Sam Jacobs, Managing Director of Stilton Studios.
